

DONITA LEMEK

Kerala, India | donitalemek05@gmail.com | +91 9400790480 | [linkedin.com/in/donita-lemek](https://www.linkedin.com/in/donita-lemek)

SUMMARY

Computer Science (Data Science) undergraduate experienced in building end-to-end AI solutions, from large-scale data engineering and feature engineering to machine learning and intelligent automation. Passionate about finance, quantitative modeling, and data-driven innovation.

EDUCATION

Kalam Technical University, Mar Athanasius College of Engineering
Btech Computer Science & Engineering (Data Science)

- **Cumulative GPA:** 7.9/10
- **Relevant Coursework:** Data Structures & Algorithms, Database Management Systems, Machine Learning, Statistical Modelling, Big Data Processing, Cloud Computing

Kothamangalam, Kerala
Expected June 2027

PROFESSIONAL EXPERIENCE

Indian Institute of Information Technology, Kottayam
Research Intern

- Processed and validated **66M+ records** across **2** cybersecurity datasets for machine learning.
- Engineered **85 standardized features** to harmonize heterogeneous network traffic datasets.
- Developed supervised ML pipelines in Python to classify and label previously unlabeled records.

Kottayam
May 2026 – July 2026

Data Science Intern (Remote Internship)
ProductByDesign

- Built **6+ ETL pipelines** to integrate and preprocess multi-source mining datasets using Python and SQL.
- Developed **time-series forecasting models** in SAP Analytics Cloud Smart Predict for production planning.
- Designed **interactive dashboards** to visualize KPIs and operational trends for business stakeholders.

Melbourne, Australia
August 2025 – November 2025

Project Intern (Hybrid Internship)
Kalkitech Ltd

- Developed a responsive web application using **React.js**, HTML, CSS, and JavaScript for enterprise workflows.
- Built interactive data visualization dashboards to analyze software testing metrics and support QA validation.
- Collaborated with cross-functional teams throughout the software development lifecycle, from development to testing.

Kochi, Kerala
December 2023 – April 2025

PROJECTS

DalalSight : ML Financial Forecasting & Portfolio Optimisation

- Developed **ARIMA, LSTM, and XGBoost stacking models** to forecast returns for **50 NIFTY stocks** using **5+ years** of market and macroeconomic data.
- Implemented **Modern Portfolio Theory (MPT)** with volatility and drawdown risk metrics for portfolio optimization.
- Built an end-to-end analytics platform using **FastAPI, React, PostgreSQL, and Streamlit** with interactive financial dashboards.

[Link](#)

Expenso (AI-Powered Expense Auditor)

- Built an AI-powered compliance engine using the **Claude AI API** to automate policy interpretation and audit decisions for **100+ expense claims**.
- Developed a **6-layer XAI framework** providing decision factors, policy evidence, confidence scores, counterfactuals, and audit trails for transparent AI decisions.
- Deployed a production-ready application using **FastAPI, MongoDB, Streamlit, Docker, and GCP Cloud Run** with CI/CD pipelines.

[Link](#)

Gold Price Prediction & Policy Simulation

- Developed a **Linear Regression** forecasting model with lagged features to predict **30-day Indian retail gold prices (INR/g)** using **USD/INR, crude oil, and gold futures** data.
- Engineered **policy simulation** modules enabling real-time analysis of **Import Duty, GST, and geopolitical risk** scenarios on gold price forecasts.
- Processed and integrated **5 multi-source datasets** using **Pandas and NumPy**, and built an interactive **Streamlit** dashboard with **Matplotlib** visualizations for historical trends and forecast analytics.

SKILLS

TECHNICAL SKILLS
Languages: Python, SQL, R, C, Java
ML & Statistics: Scikit-learn, PyTorch, XGBoost, LSTM, ARIMA · Pandas, NumPy · Statistical Modelling · Hypothesis Testing
Data & BI: PySpark, Hadoop, Databricks · MySQL, MongoDB · Tableau, Power BI, Matplotlib · SAP Analytics Cloud
Web & Tools: FastAPI, React.js, Git, Jupyter, VS Code

LEADERSHIP EXPERIENCE

Convenor, MACE Model United Nations

- Led the planning and execution of MACE MUN, coordinating committees, delegates, and organizing teams.

2026 - Present

Secretary, Robotics and Automation Society, IEEE MACE

- Conducted technical sessions on scheduling algorithms, automation, and core robotics skills

2025 - 2026

Campus Lead, TinkerHub MACE

- Organised Kerala's largest women-only hackathon, Tink-Her-Hack, with 100+ participants; won Best Venue Award among 63 colleges

2024 - 2025

Campus Director, Hult Prize MACE

- Led the on-campus program with 100+ participants pitching solutions for global challenges.

2023 - 2025
